The 2026 Singapore Invention Convention is inviting academic and corporate professionals to serve as judges, evaluating innovative projects developed by our young inventors.

As a judge, your expertise and insights will play a critical role in shaping participants' learning experience. Past inventors have consistently shared that judges' questions and feedback challenged their thinking, strengthened their ideas, and opened up new possibilities for further development.

Judging will take place on 26 March 2026 at Temasek Polytechnic, and we kindly seek a commitment of approximately 3.5 hours, inclusive of briefing, project evaluation, and scoring.

**Register Here  
by 27 Feb 2026**

[https://inventconvention  
.stemie.sg/judges-info/](https://inventconvention.stemie.sg/judges-info/)

To better understand the judging process, you will receive bite-size training videos in your email. This will be followed by a hands-on session with our event judging platform, with guidance from our Lead Judge.

*For more information, please contact [hello@stemieadvantages.org](mailto:hello@stemieadvantages.org) or visit [inventconvention.stemie.sg](https://inventconvention.stemie.sg)*
